Art Unit: 1614

CLAIMS 1-55 AND 57-60 ARE PRESENTED FOR EXAMINATION

Applicant's Remarks filed February 24, 2004 and Amendment filed April 1, 2004 have been received and entered into the application. Accordingly, claims 1 and 57 have been amended.

Claim Rejection - 35 USC § 103

Claims 1-56 and 58-60 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Lamuraglia (WO 01/24825 A2), already of record, for the reasons of record as set forth in the previous Office action dated May 9, 2003.

Applicant's arguments have been carefully considered, but fail to persuade the Examiner of error in his determination of obviousness.

In particular, applicant has argued that in the present claims, the light wavelength is limited at its upper limit to "shorter than 610 nm" while in Lamuraglia, wavelengths of from 660 nm to 690 nm are taught. It is further argued that in Lamuraglia, the lower limit of "about 660 nm" would not encompass the presently claimed upper limit of 610 nm because Lamuraglia advocates the use of long wavelengths to avoid blood absorption of light and applicant has shown in their remarks at page 3 that at wavelengths shorter than 610 nm, there is a strong blood absorption of light.

In response thereto, it is first noted that applicant's upper limit is not limited to "shorter than 610 nm" as argued. Rather, the range in claims 1 and 57 reads "about 440 to 610 nm". This would include 610 nm. Also, while it is agreed that Lamuraglia prefers to avoid blood absorption of light (see Lamuraglia at page 10, lines 31-32), Lamuraglia also teaches that

Art Unit: 1614

wavelengths of light of from 350 to 900 nm are useful (page 10, lines 30-31) and it is well settled that all embodiments taught by a reference as being effective are teachings that may be relied upon in support of a finding of non-obviousness. See MPEP 2123.

Accordingly, the claims are deemed to remain properly rejected and none are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
